National Resource Defense Council**

# Health Adaptation to Climate Change in NYC

**This NRDC internship looked at the projected health impacts of climate change and identified ways to prepare for and mitigate those threats. Projects involved:**

- **Vulnerable populations in NYC adaptation strategies**
- **Best practices for health in climate change planning**
- **Emergency planning and future climate change**
- **State factsheets for congress members**
- **Factsheet on the effects of climate change on waterborne illnesses**
