Green Jobs not Jails

Green Jobs include installing solar panels, retrofitting buildings, landscaping, and more.

Recidivism rates are low.
Smaller cost per person than jail.
Paths to career employment.

New jail costs more than $635 million over the 5 planned years of construction and 30 years of operations of this prison.

Many are jailed because they cannot afford bail ($1000), but the cost of jailing a person for seven days is more than the original bail.
